

Meritor Parts

Meritor Part - The Meritor Business is a leading global supplier founded upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems together with a range of modules and components to the original machinery manufacturers and aftermarket equipment in the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and feels that this particular energy contributes to their competitive advantage within the worldwide operations. The company values all of their customers and wants to ensure their success while anticipating their different needs. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 nations and employing more than eleven thousand two hundred people, Meritor promotes innovation and collaboration amongst a team of experienced professionals.

Meritor strongly believes in just employing future focused employees. These top-caliber people can rapidly adapt to changing environments and freely exhibit the level of performance and commitment considered necessary to be able to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides their employees various opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, braking and suspension systems used for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of their global engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum development at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 nations.

They have their supplier network which is specifically located to support the growth of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each part of the trade. The DFSS or also known as Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business processes and implement lean techniques.
