

## Spreader Bars for Forklift

Spreader Bar for Forklifts - ELME has been proudly operating ever since nineteen seventy four, becoming the biggest independent spreader maker around the globe. They are a dedicated producer of spreaders meant for numerous various applications such as the swop bodies, trailers, and handling of containers.

ELME presently employs more than a hundred and twenty five staff with all engineering is done in-house by way of making use of all of the latest CAD systems and FEM tools. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry all-over the globe.

The ELME product series offers spreaders intended for different trailer and container handling operations. A few of their inventory consist of: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers in addition to a huge array of attachments.

ELME production and manufacturing is performed in a highly automated purpose built factory. In 2008, they created more than 1150 spreaders by making use of high quality elements in order to ensure dependability and top standards while offering reasonable prices. Major characteristics of ELME include design simplicity, market reaction and inventive modular spreader concept.
